CodeIgniter 4, Laravel, React

Tools

Composer, API Integration,
JIRA, Bitbucket

PROFESSIONAL EXPERIENCE

KGN Infotech Laravel Developer

12 December 2024 - Present

Graphic Zone Testgenerator (<https://smarkinder.in/>)

testgenerator is a digital educational platform that helps teachers create customized question papers for students using interactive resources like flipbooks, videos, teacher manuals, and lesson planners. The flipbooks offer textbook content in an engaging format, while videos enhance concept clarity. Teacher manuals provide structured teaching guidance, and the lesson planner helps organize sessions. The core feature, Test Generator, allows easy creation of question papers which can be downloaded in multiple languages as PDF or Word (DOCX) files, making assessment simple and efficient.

VserveCRM – Real Estate Property Management Platform (<https://vservecrm.com/>)

Developed and managed a real estate CRM platform designed for property developers and agents to list and manage residential and commercial projects across multiple countries.

- Implemented country-wise property listing system with dynamic project categorization.
- Developed multi-currency pricing functionality, displaying property prices based on selected country.
- Designed advanced search and filtering system (property type, price range, location, etc.).
- Built a comprehensive Admin Panel to manage:
 - Property projects Listings and pricing
 - Users and inquiries Content management

Ubadmit – Overseas Education Lead Management CRM

(<https://ubadmit.com/>)

Developed and managed a multi-role Education CRM system designed to handle student leads interested in studying abroad.

- Designed complete Lead Management System for handling student inquiries from multiple sources.
- Created role-based dashboards with dynamic data visibility.
- Ensured optimized database queries and scalable backend architecture.

Integrated leads from:

- Different website pages
- Multiple forms
- Various marketing sources

Deeba Dies & Tools (<https://erp.deebadies.com/login>)

- Implemented using Spatie Permissions to manage user roles (Admin, Manager, Sales Person) and restrict features based on roles.
- Assign dies to workers and track progress efficiently with automated status updates.
- Maintains sales records, stock levels, and client orders for accurate reporting.
- Provides real-time dashboards showing production, sales, and pending jobs.
- Supports multiple users with different permissions to handle sales, manufacturing, and reporting.
- Optimized queries for large datasets involving dies, orders, and job assignments.

Online HSE Management Solution (<https://hseincidents.meilanparapower.net/login>)

- Developed a web-based Environment, Health, and Safety (EHS) system to manage and document workplace incidents. The platform allows logging employee incidents, maintaining detailed reports, and streamlining the incident reporting process to ensure compliance with EHS standards.
- Designed and implemented incident reporting workflow for employees and management.
- Built secure login and role-based access control for staff.
- Developed CRUD functionality for incidents, including tracking, status updates, and archival.
- Generated incident reports and analytics for management review.
- Ensured data integrity and compliance with health and safety regulations.

TYH Warehouse Management System (<https://tyh.smartintellitrolly.com/login>)

- Implemented automated bill/invoice generation for users and clients.
- Managed product records, inventory tracking, and warehouse operations efficiently.

Orgnixo Hr Management System (<https://kgninfotech.orgnixo.com/login>)

- Developed a comprehensive HR Management System with role-based access control.
- Implemented Super Admin module to manage permissions, dynamic UI configurations, and system-level settings.
- Admin functionalities include:
- Employee records management (add, update, delete, view).
- Salary management with automated calculations and record tracking.
- Attendance and timesheet management for employees.
- Deduction management (taxes, leaves, penalties).

Texan Hr Management System (<https://hrms.kgninfo.com/login>)

Employee & Project Management

- Employees personal details, employment history, assignments
- Projects: projects record, employee assignments to projects, project status tracking

Payroll & Salary Management

- Salary record keeping
- Deductions (tax, penalties, etc.)
- Advances / loans to employees
- Uniform / allowances / benefits
- Net pay calculation after deductions & additions
